Mr. Shoichiro Eguchi

Representative Director of the Board, President and Chief Executive Officer (CEO)  
JVCKENWOOD Corporation

We, SOCOTEC Certification Japan (hereafter "SOCOTEC"), have performed a limited assurance engagement, in response to the entrustment from JVCKENWOOD Corporation (hereafter the "Company") in order to provide an opinion as to whether the subject matter information ("GHG Emissions Calculation Report (FY2024) and Energy data (FY2024)" (period: 1 April 2024 to 31 March 2025)) of the Company meets the criteria in all material respects.

### 1 Subject Matter Information and Criteria

The subject matter information for our assurance is a "report on GHG Emissions and Energy Data (shown in the Appendix)" covering the operations and activities at the Company and its consolidated subsidiaries in Japan and overseas (15 domestic companies, eight overseas companies and others) described in the "GHG Emissions Calculation Report (FY2024) and Energy data (FY2024)" (period: 1 April 2024 to 31 March 2025).

The criteria for preparing subject matter information is the "GHG Emissions Calculation Rules (Ver2.0)".

### 2 Management Responsibility

The "GHG Emissions Calculation Report (FY2024) and Energy data (FY2024)" (period: 1 April 2024 to 31 March 2025) was prepared by the management of the Company, who is responsible for the integrity of the assertions, statements and claims made therein (including the assertions over which we have been engaged to provide limited assurance), the collection, quantification and presentation of all data and information in the report, and applied criteria, analysis and publication.

### 3 Assurance Practitioner's Responsibility

The responsibility of SOCOTEC is to express a limited assurance conclusion as to whether the subject matter information has been prepared in compliance with the criteria in all material respects.

We have performed limited assurance engagement in accordance with the verification procedures stipulated by SOCOTEC and "JIS Q 14064-3:2023 (ISO 14064-3:2019) Specification with guidance for the verification and validation of greenhouse gas statements" and the International Standard on Assurance Engagements (ISAE) 3000 (Revised), "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" of International Auditing and Assurance Standards Board (IAASB).

The procedures performed in the limited assurance engagement are limited in their type, timing and scope as compared to the procedures performed in the reasonable assurance engagement. As a result, our limited assurance engagement does not provide as high assurance as reasonable assurance engagement.

Our procedures performed depend on the assurance professional practitioner's judgement, including an assessment of the risk of material misstatement, whether due to fraud or error. Our conclusion was not designed to provide assurance on internal controls.

We believe that we have obtained the evidence to provide a basis for our limited assurance conclusions.
