<p data-bbox="272 1872 884 1895">Special notes on candidate for external director</p> <p data-bbox="272 1899 1477 1953">Mr. Yasuyuki Abe is a candidate for external director prescribed under Article 2, paragraph 3, item 7 of the Ordinance for Enforcement of the Companies Act.</p>			

Reasons for selecting him as a candidate for external director

The Company proposes to elect Mr. Yasuyuki Abe as an external director and expects his proper advice as a corporate manager based on his extensive experience, knowledge, professional views and personal relationships in the electronics, machinery and information industry fields abroad that were obtained through his work at and management of companies outside the Group, will be utilized in the Company's management, and that he will continue to be active in a position to supervise the Company's management by giving the Company advice and proposals as an objective third party not involved in the Group's business execution in order to ensure the appropriateness and properness of the decision-making process by the Board of Directors.

Tenure of office as external director of the Company since he took office

Mr. Abe is currently an external director of the Company, and his tenure of office as an external director of the Company will be three (3) years at the conclusion of this General Meeting of Shareholders.

Outline of the liability limitation agreement

The Company has concluded a liability limitation agreement regarding the indemnity liability provided under Paragraph 1 of Article 423 of the Companies Act with Mr. Abe. The indemnity liability shall be thereunder limited to 5 million yen or the minimum liability limitation provided by laws and regulations, whichever is higher, when the external director has acted faithfully and without gross negligence. When the reappointment of Mr. Abe is approved, the Company shall extend this agreement with him.

Matters concerning independence

No mutual relationship exists between Sumitomo Corporation and Orange and Partners Co., Ltd., where he concurrently holds office, and the Company, such as business transactions including donations, mutual dispatch of directors or shareholding.

SCSK Corporation ("SCSK") and the Company had business relations in the past regarding purchases, and the predecessors of SCSK included Sumisho Electronics Co., Ltd. and Sumisho Computer Systems Corporation, both of which he previously served in as an executive. However, SCSK's transactions with the Company amounted to less than one (1) percent of the consolidated net sales of the Company or SCSK, and did not fall under major transactions for either the Company or SCSK. No transactions were recorded in the consolidated fiscal year under review. In addition, he resigned as a representative director of SCSK eight (8) years ago and currently has no relationship with the company. Additionally, no mutual relationship exists between SCSK and the Company including donations, mutual dispatch of directors or shareholding.

Furthermore, SUBARU CORPORATION, where Mr. Abe serves as an outside corporate auditor, currently has business relations with the Company with regard to purchases and sales. Its transactions with the Company, however, amounted to less than one (1) percent of the consolidated net sales of the Company or the firm in the consolidated fiscal year under review, and do not fall under major transactions for either the Company or the firm. In addition, no mutual relationship exists between SUBARU CORPORATION and the Company including donations, mutual dispatch of directors or shareholding.

Furthermore, Mr. Abe has not been an operating officer or the like of our major business partners and major shareholders in the past other than that stated above. For these reasons, the Company regards him as independent.

The Company provided notice on Mr. Abe to the Tokyo Stock Exchange (TSE), Inc. as an independent director as appointed by the Company under the provisions of TSE. If Mr. Abe's appointment is approved, the Company will continue to designate him as an independent director.

Concerning the candidate's service over the past five years as Directors, Executive Officers, or Corporate Auditors of other companies, records of inappropriate actions by these companies during the candidate's terms of office therein, steps taken by the candidate to prevent such inappropriate actions, or responses taken by the candidate to deal with such actions after their occurrence

It came to light that at SUBARU CORPORATION, at which Mr. Abe has held a concurrent position as Outside Corporate Auditor since June 2016, there were cases of nonconforming final vehicle inspection and altering of fuel economy and emissions data during final vehicle inspection. Although Mr. Abe had been unaware of this fact in advance, drawing on his ample experience and deep insight, he had regularly noted the importance of internal controls and made proposals from the viewpoint of compliance with the laws and regulations as necessary. After the detection of the said fact, for instance, he kept himself informed of the progress of investigations into the facts behind the issue, etc. by receiving regular reports, and called for suitable measures to be taken within the company for timely and appropriate response and further strengthening and thorough promotion of compliance, as well as measures to prevent recurrence, and has been fulfilling his duties.

Outline of the liability limitation agreement

The Company has concluded a liability limitation agreement regarding the indemnity liability provided under Paragraph 1 of Article 423 of the Companies Act with Mr. Hikita. The indemnity liability shall be thereunder limited to 5 million yen or the minimum liability limitation provided by laws and regulations, whichever is higher, when the external director has acted faithfully and without gross negligence. When the reappointment of Mr. Hikita is approved, the Company shall extend this agreement with him.

Matters concerning independence

No mutual relationship exists between Hikita Consulting Co., Ltd., where he concurrently holds office, and the Company, such as business transactions including donations, mutual dispatch of directors or shareholding.

ROHM Co., Ltd., which Mr. Hikita previously served in as an executive, and the Company currently have business relations regarding purchases and transactions. Transactions of ROHM Co., Ltd. with the Company amounted to approximately 3.0 billion yen in the consolidated fiscal year under review, which exceed one (1) percent of the consolidated net sales of the Company and is less than one (1) percent of the consolidated net sales of ROHM Co., Ltd. However, he resigned as Senior Corporate Advisor of ROHM Co., Ltd. ten (10) years ago and currently has no relationship with the company. Although ROHM Co., Ltd. holds 31,400 shares of the Company, the number of shares held is considered to be small, the shares are not cross-held, and no mutual relationship exists between the Company and ROHM Co., Ltd. including donations and mutual dispatch of directors.

Furthermore, Mr. Hikita has not been an operating officer or the like of our major business partners and major shareholders in the past other than that stated above. For these reasons, the Company regards him as independent.

The Company provided notice on Mr. Hikita to the Tokyo Stock Exchange (TSE), Inc. as an independent director as appointed by the Company under the provisions of TSE. If Mr. Hikita's appointment is approved, the Company will continue to designate him as an independent director.

When the reappointment of Mr. Iwata is approved, the Company shall extend this agreement with him.

Matters concerning independence

While Hitachi Transport System, Ltd., where Mr. Iwata concurrently holds office, is a business partner of the Company with regard to purchases, and Hitachi, Ltd., where Mr. Iwata concurrently holds office, is a business partner of the Company with regard to purchases and sales, the transactions amounted to less than one (1) percent of the consolidated net sales in the consolidated fiscal year under review of either the Company or each of these companies and do not fall under major transactions for any of the companies. In addition, no mutual relationship exists between Benesse Holdings, Inc. or NACHI-FUJIKOSHI CORP., where Mr. Iwata concurrently holds office, and the Company, including donations, mutual dispatch of directors or shareholding.

Moreover, while Hitachi Kokusai Electronic Inc. and Hitachi Automotive Systems, Ltd., where Mr. Iwata previously served as an executive, are business partners of the Company with regard to sales, the transactions amounted to less than one (1) percent of the consolidated net sales in the consolidated fiscal year under review and do not fall under major transactions for each of these companies and the Company.

Additionally, no mutual relationship exists between Hitachi Data Systems Corporation and Hitachi Global Storage Technologies, Inc., where Mr. Iwata previously served as an executive, and the Company including donations, mutual dispatch of directors or shareholding.

Furthermore, Mr. Iwata has never engaged in business execution as a business partner or principal shareholder of the Company while at Hitachi Data Systems Corporation, Hitachi Global Storage Technologies, Inc. (currently HGST, Inc.), Hitachi Koki Co., Ltd., and Hitachi Automotive Systems, Ltd.

Furthermore, Mr. Iwata has not been an operating officer or the like of our major business partners and major shareholders in the past other than that stated above. For these reasons, the Company regards him as independent.

If Mr. Iwata's appointment is approved, the Company will designate him as an independent director as stipulated in the provisions of the Tokyo Stock Exchange, Inc.

Since Mr. Iwata took office of Outside Director, he has made proposals from the viewpoint of compliance with the laws and regulations and compliance-oriented management as necessary, and called for improvement of internal controls in Benesse Holdings, Inc. as part of proposals for preventing recurrence, and has continued to fulfill his duties as Outside Director.

(From April 1, 2017 to March 31, 2018)

1. Matters Concerning the Current Situation of the Group

[1] Course of Business and the Results

The global economy in the fiscal year under review saw a steady economic expansion in the U.S., owing to improvements in the employment environment and income conditions. In Europe, major EU nations maintained solid economy, while the UK economy also remained steady. Economic expansion continued in China although the pace of growth slowed. Japan continued to experience a moderate recovery trend.

Net sales of the JVCKENWOOD Group for the fiscal year under review increased from the previous fiscal year due to a significant increase in sales in the Automotive Sector despite lower sales in the Public Service Sector, which were affected by business sell-offs, and lower sales in the Media Service Sector, in which the Entertainment Business had benefited from major works in the previous fiscal year. Operating income for the entire Company also increased due to a significant increase in profit in the Automotive Sector.

Profit-and-loss exchange rates used when preparing the financial statements for the fiscal year under review are as follows:

		1 st Quarter (from April 1, 2017 to June 30, 2017)	2 nd Quarter (from July 1, 2017 to September 30, 2017)	3 rd Quarter (from October 1, 2017 to December 31, 2017)	4 th Quarter (from January 1, 2018 to March 31, 2018)

*** Consolidated Net Sales**

302,434 million yen (up 1.1% YoY)

Net sales for the fiscal year under review increased about 3,200 million yen, or 1.1%, year-on-year to 302,434 million yen.

Sales in the Automotive Sector greatly increased from the previous fiscal year, reflecting significantly higher sales in the OEM Business resulting from increased sales of dealer-installed option products, among other factors. Meanwhile, sales in the Public Service Sector decreased from the previous fiscal year due primarily to lower sales in the Professional Systems Business, affected by business sell-offs. Meantime, sales decreased in the Media Service Sector due to lower sales in the Media Business, and also in the Entertainment Business, which benefited from major works in the previous fiscal year.

*** Consolidated Operating Income**

6,682 million yen (up 15.6% YoY)

Operating income for the fiscal year under review increased about 900 million yen, or 15.6%, year-on-year to 6,682 million yen.

Profit grew sharply in the Automotive Sector because the OEM Business saw a significant increase in profit and became profitable. Profit decreased in the Public Service Sector, reflecting lower profit recorded in the Communication Systems Business and in the Professional Systems Business. Profit decreased in the Media Service Sector due to a profit decrease in the Entertainment Business, although the loss amount of the Media Business decreased despite lower sales because of improvement of profitability of professional video cameras and image devices.

*** Consolidated Ordinary Income**

5,803 million yen (up 60.5% YoY)

Ordinary income for the fiscal year under review increased about 2,200 million yen, or 60.5%, year-on-year to 5,803 million yen because non-operating income/loss improved, coupled with the increase in operating income.

*** Consolidated Net Income Attributable to Owners of Parent**

3,936 million yen (an increase of approx. 10,700 million yen YoY)

Net income attributable to owners of parent for the fiscal year under review amounted to 3,936 million yen, an improvement of about 10,700 million yen for the previous fiscal year. Major factors for this improvement included an increase in ordinary income, a decrease in extraordinary loss, and recording of extraordinary profit and reversal of deferred tax liabilities owing to "Shifting between Different Retirement Benefit Programs", as well as reversal of deferred tax assets and liabilities pertaining to U.S. subsidiaries and a decrease in tax expenses.

***Automotive Sector**

Net Sales 172,760 million yen (up 15.9% YoY)

In the Aftermarket Business, although sales in overseas markets were affected by lower sales in the US market, sales of Saisoku-Navi series car navigation systems and dashcams were strong in the domestic market. As a result, net sales in the Aftermarket Business as a whole were virtually unchanged from a year ago.

In the OEM Business, net sales increased from the previous fiscal year, due to a sharp increase in sales of dealer-installed option products and factory-installed equipment.

Operating Income 8,115 million yen (up 264.3% YoY)

In the Aftermarket Business, operating income for the fiscal year under review decreased from a year ago, due mainly to lower sales in the US market despite a strong performance in the domestic market.

In the OEM Business, a significant increase in sales resulted in a significant increase in profit, and turned the loss in the previous fiscal year to profit.

***Public Service Sector**

Net Sales 64,951 million yen (down 11.0% YoY)

Net sales in the Communication Systems Business decreased from the previous fiscal year, due to the impact of lower sales of professional radio systems in Chinese and other Asian markets despite higher sales posted by Group's US communication system subsidiaries and in the domestic market. Net sales in the Professional Systems Business, operated mainly by JVCKENWOOD Public & Industrial Systems Corporation (JKPI), declined from a year ago, reflecting the sale-off of a card printer business in the previous year.

Operating Income 1,158 million yen (a decrease of approx. 2,300 million yen YoY)

In the Communication Systems Business, operating income decreased from the previous fiscal year, due primarily to the effects of the decrease in sales.

In the Professional Systems Business, operating income decreased from the previous fiscal year, due primarily to the effects of the decrease in sales.

(Translation)

***Media Service Sector**

Net Sales 59,471 million yen (down 17.8% YoY)

In the Media Business, net sales decreased from the previous fiscal year, affected by lower sales of consumer video cameras and AV accessories.

In the Entertainment Business, net sales decreased from the previous year, affected by decrease in content sales as the Entertainment Business had benefited from major works in the previous fiscal year.

Operating Loss 196 million yen (a decrease of approx. 2,500 million yen YoY)

Despite the impact of lower sales, the Media Business became profitable in the second half because of improvement of profitability of professional video cameras and image devices, and the amount of loss decreased from the previous fiscal year.

In the Entertainment Business, operating income decreased from the previous fiscal year, due to the effects of the decrease in sales.

[2] Issues to be Addressed

(1) Mid- to long-term management strategies

We, JVCKENWOOD Corporation, launched a mid- to long-term management plan, Vision 2020, with fiscal year ending March 2020 (FY2020) as the target year, on May 18, 2015, and have since been carrying out our business activities by using return on equity (ROE) as a major management indicator and focusing on fields where we can capitalize on our strengths. In view of the results of analysis and review of the progress made so far, which were announced on January 31, 2018, we will work toward achieving ROE of 10% in FY2020, the final year of Vision 2020, by further accelerating our initiatives.

Our long-term vision toward FY2020 is “transformation into a customer value creator” that focuses on providing solutions to customers’ issues. In order to achieve this vision, we are focusing on the three initiatives: (1) shifting from a product vendor to a solution provider, (2) shifting from sales companies to business operation companies, and (3) shifting from closed innovation to open innovation. In addition to continuing the pursuit of these three initiatives, we have introduced the following new initiatives.

1) Evolution into a “Technology Based Company” founded on intellectual property

We own a number of intellectual properties mainly in the fields of video, audio, and communications cultivated through our business activities over the years. We will aim to become a technology based company that makes a variety of proposals to solve customers’ issues and social issues by making the maximum use of our intellectual properties.

2) Initiative designed to increase the brand value

To coincide with the release of “EXOFIELD”, our unique out-of-head localization sound processing technology, in March 2017, we redefined and revived Victor as a brand that “explores a new era with pride.” We will continue to come up with innovative solutions that create customer value.

3) Initiative designed to solve social issues through business activities

We will incorporate sustainability in our basic strategy, and will link our business with the issues to be addressed by the SDGs* and work toward solving social issues through business activities, while continuously seeking to improve corporate value by implementing innovation that anticipates the needs of society.

*: Abbreviation of Sustainable Development Goals adopted by the United Nations General Assembly in September 2015

(2) Automotive Sector's growth strategy

Make investments for strengthening the in-vehicle optical device-related business and expanding the customer base in anticipation of greater demand for in-vehicle optical devices following the transition to self-driving vehicles and connected vehicle technologies.

In the Automotive Sector, by utilizing our technologies in imaging, audio, and communications cultivated over the years, as well as technologies, know-how, and points of contact with customers acquired in the development process, we will strengthen our efforts, especially in the in-vehicle optical device-related business, such as dashcams and car-mounted cameras, for which demand is expected to expand as the transition to EVs*¹, self-driving vehicles, and connected vehicle technologies occurs. At the same time, we will expand the business and reinforce the customer base in the North American and Chinese markets through ASK Industries S.p.A. (ASK), an in-vehicle equipment manufacturer in Italy, and JVCKENWOOD Hong Kong Holdings Limited (JKHL), manufacturer and seller of CD and DVD mechanisms for car AV equipment in Hong Kong, both of which are our subsidiaries and stably generating profit. We will make aggressive investments to support these initiatives to pursue growth of the Automotive Sector as a whole.

1) Expansion of the in-vehicle device business

- In-vehicle optical device-related business
Aim to maintain the top market share in dashcams and capture the top position in car-mounted cameras by leveraging our imaging technologies.
- Make proposals of next-generation vehicle interior space
Aim to expand business in the Human Machine Interface-related field by leveraging the strengths in audio and imaging technologies.

2) Expansion of customer base in the OEM Business

- ASK
Aim to expand business to the U.S. market in FY2018 or thereafter to achieve further growth.
- Strategy for the Chinese market
Aim to increase the local-production-for-local-consumption business by utilizing JKHL and our production bases in China. Plan to expand the Chinese business centered on car-mounted cameras, electronic mirrors, and premium sound systems.

(3) Public Service Sector's growth strategy

Shift to the provision of total system solutions in the Communications Systems Business and venture into new business fields utilizing our technologies in the Healthcare Business.

In the Communications Systems Business, we are strengthening investment in the public safety field to shift away from business operation centered on sales of radio terminals to the IP^{*1} radio solutions business in anticipation of the progress of the shift to broadband in professional digital radio infrastructure.

In March 2017, we entered into a capital and business alliance agreement with U.S.-based Sonim Technologies Inc., which leads the industry with its robust professional LTE^{*2} smartphone systems, acquiring technology components necessary for shifting to IP-based networks and solutions for digital radio systems. In January 2018, we converted Radio Activity S.r.l., an Italy-based developer and seller of digital radio relay systems that are compliant with DMR^{*3} standards, into a consolidated subsidiary to strengthen the lineup of digital radio system solutions for the growing market for DMR. We will proactively take measures, such as executing M&As and establishing partnerships with other companies, to acquire technologies and customer bases necessary to expand our business.

In the Healthcare Business, we will seek to move into the OR^{*4} imaging system solution market and roll out the OR imaging system solution business through a collaboration with Rein Medical GmbH in Germany, with the aim of expanding business from selling stand-alone medical displays into the medical imaging and information solution field. In addition, we are venturing to branch out into new business fields through research collaboration with external research institutions and partner companies, such as a blood diagnosis solution that enables early detection of cancer by applying the microfabrication technology cultivated through production of Blu-ray discs, as well as a solution useful for the early assessment of social developmental disabilities. Going forward, JVCKENWOOD will make continuous investment, including execution of M&As, to promote commercialization of such new solutions and work toward solving social issues through business activities.

JKPI took over the business from the Company through a company split in April 2016 to establish a business framework for providing one-stop solutions, ranging from sales of equipment to system proposal, design, installation, maintenance, and management. JKPI is currently striving to strengthen its solution-proposal capability, technological capability, and engineering capability that lead to customer value creation by optimizing organization structure and human resources. In addition, JVCKENWOOD will share the customer base and service systems of JKPI in the effort by the Healthcare Division to move into the OR imaging system solution market, and make a Group-wide effort to tap into a new solution market.

(4) Media Service Sector's growth strategy

Create new markets by utilizing our technologies and assets (brands) and accelerate the shift toward the provision of solutions.

In the BtoC domain of the Media Service Sector, in March 2017, we launched "EXOFIELD" that gives headphones the same real sound-effect as if listening by a speaker in an audio room through the sound field processing technology based on individual characteristics measurement, as the first product marketed under the new Victor brand.

In the BtoB domain, we have introduced "CONNECTED CAM," a new concept for professional video cameras featuring a news-over-IP workflow solution. We will also create unique imaging solutions in line with the latest technology trends, such as 8K/4K^{*1}, HDR^{*2}, and VR^{*3}/ AR^{*4}. In the field of projectors, we will provide systems that link with products that boast unparalleled high definition and connectivity to customers' equipment to continue to reinforce our response to customers' needs for simulators and other solutions. In regard to creation, in the growing sports-related market, we will enhance our offerings of unique services and systems, mainly applying our imaging technology.

In the imaging device field, we developed a high-performance LCOS^{*5} device in-house for high-resolution projectors and incorporated the device in our projectors. In addition, we started sales of this technology to external customers for use in switches for optical communication systems. We will boost sales of this technology in the communication device business.

In the Entertainment Business, JVCKENWOOD will further advance its transition to the total entertainment business, by strengthening the audio data source business and enhancing movies, games, and other content, as well as by expanding the peripheral business, such as live concert/event business and merchandising business.

In this way, we provide sound fields optimized for individual users. These are the first products marketed under the new Victor brand.

Shift toward provision of solutions/technical application to other fields

Shifting from selling products only to providing systems and solutions.

The Audit & Supervisory Board audited the Directors' performance of duties for the 10th business period from April 1, 2017 to March 31, 2018. The Audit & Supervisory Board reports the method and the results as follows:

1. Audit Method and Details by the Audit & Supervisory Board Members and the Audit & Supervisory Board

The Audit & Supervisory Board established the auditing policies, audit plan, allocation of duties, and received reports from each Audit & Supervisory Board Member on the status of implementation of audits and results thereof. In addition, it received reports from Directors, Executive Officers and the accounting auditor on the status of execution of their duties and asked them for explanations as necessary.

In compliance with the auditing policies for Audit & Supervisory Board Members which were established by the Audit & Supervisory Board, and in accordance with auditing standards and allocation of duties, etc., each Audit & Supervisory Board Member maintained good communication with Directors, Executive Officers, the Management Audit Office (the internal audit division) and employees, strived to collect information, improved the auditing environment, and implemented audits as follows:

- (1) We attended Board of Directors' meetings and other meetings as deemed important, received reports from Directors, Executive Officers, and employees on the status of execution of their duties, asked for explanations as necessary, perused the documents whereby the important decisions were made and other important authorization documents, etc. and examined business and financial conditions at the head office and principal offices. Furthermore, with regard to subsidiaries, we maintained good communication and exchanged information with Directors and Audit & Supervisory Board Members, etc. of the subsidiaries, visited the head offices and principle offices of the subsidiaries as necessary, and received business reports from the subsidiaries.

- (3) We monitored and verified whether the accounting auditor maintains independency and properly implements audit, received from the accounting auditor reports on the execution of duties and asked for explanations as necessary. We also received a report from the accounting auditor stating that "systems for ensuring proper execution of duties" (listed in each item of Article 131 of the Company Accounting Ordinance) have been established in accordance with the "Quality Control Standards for Audits" (Business Accounting Council, October 28, 2005), and asked the accounting auditor for explanations as necessary.

Based on the above method, the Audit & Supervisory Board examined the business report and the related supplementary schedules, the non-consolidated financial statements (non-consolidated balance sheet, non-consolidated statements of income, non-consolidated statement of changes in shareholders' equity, and notes to non-consolidated financial statements) and the related supplementary schedules, and the consolidated financial statements (consolidated balance sheet, consolidated statements of income, consolidated statement of changes in shareholders' equity, and notes to consolidated financial statements) for the current fiscal year.
