Proposal No. 1: Partial Amendments to the Articles of Incorporation

1. Reason for the proposal

- (1) JVC KENWOOD's business title, "JVC KENWOOD Corporation," combines the names of its brands: "JVC" and "KENWOOD." Meanwhile, "JVCKENWOOD," the Company's English business title, has been used for the names of the Group's overseas affiliates. We have decided to remove the space between "JVC" and "KENWOOD" in the Japanese business title to unify the name to "JVCKENWOOD" with the objective of enhancing the sense of unity of the global corporate group. The change of business title will take effect on July 1, 2019. (Article 1 and the Supplementary Provision)
- (2) The Company shall add "sales of automotive-related products," etc. to the purpose of business prescribed in Article 2 (Purpose) of the Articles of Incorporation in accordance with its current businesses, as well as to accommodate its future business development and diversification of business segments. (Article 2)
- (3) The Company shall revise the provisions concerning the convener and the Chairman of the General Meeting of Shareholders, assuming the case where the post of Chairman is not established as the post of Director. (Article 14)
- (4) The Company has aimed to separate execution and supervisory functions by adopting the Executive Officer System since it was established in October 2008. Taking the current situation in consideration, the Company shall aim to further clarify the governance structure, with a clear separation of the execution body and the supervisory body, by adding new provisions concerning Executive Officers to the Articles of Incorporation and prescribing that positions of responsibility shall be attached in principle to Executive Officers. <p>Special notes on candidate for external director Mr. Yasuyuki Abe is a candidate for external director prescribed under Article 2, paragraph 3, item 7 of the Ordinance for Enforcement of the Companies Act.</p>			

Reasons for selecting him as a candidate for external director

The Company proposes to elect Mr. Yasuyuki Abe as an external director and expects his proper advice as a corporate manager based on his extensive experience, knowledge, professional views and personal relationships in the electronics, machinery and information industry fields abroad that were obtained through his work at and management of companies outside the Group, will be utilized in the Company's management, and that he will continue to be active in a position to supervise the Company's management by giving the Company advice and proposals as an objective third party not involved in the Group's business execution in order to ensure the appropriateness and properness of the decision-making process by the Board of Directors.

Tenure of office as external director of the Company since he took office

Mr. Abe is currently an external director of the Company, and his tenure of office as an external director of the Company will be four (4) years at the conclusion of this General Meeting of Shareholders.

Outline of the liability limitation agreement

The Company has concluded a liability limitation agreement regarding the indemnity liability provided under Paragraph 1 of Article 423 of the Companies Act with Mr. Abe. The indemnity liability shall be thereunder limited to 5 million yen or the minimum liability limitation provided by laws and regulations, whichever is higher, when the external director has acted faithfully and without gross negligence. When the reappointment of Mr. Abe is approved, the Company shall extend this agreement with him.

Matters concerning independence

SUBARU CORPORATION ("SUBARU"), where Mr. Yasuyuki Abe concurrently holds office, had in the past and currently has business relations with the Company with regard to purchases and sales. However, SUBARU's transactions with the Company in the past and in the consolidated fiscal year under review amounted to less than one (1) percent of the consolidated net sales of the Company or SUBARU in each corresponding fiscal year, and do not fall under major transactions for either the Company or SUBARU. In addition, no mutual relationship exists between SUBARU and the Company, including donations, mutual dispatch of directors or shareholding.

No mutual relationship exists between Orange and Partners Co., Ltd., where he concurrently holds office, and the Company, such as business transactions including donations, mutual dispatch of directors or shareholding.

SCSK Corporation ("SCSK"), where Mr. Abe previously served as an executive, had in the past and currently has business relations with the Company with regard to purchases. However, SCSK's transactions with the Company in the past and in the consolidated fiscal year under review amounted to less than one (1) percent of the consolidated net sales of the Company or SCSK in each corresponding fiscal year, and do not fall under major transactions for either the Company or SCSK. Moreover, no other mutual relationship exists between SCSK and the Company, including donations, mutual dispatch of directors or shareholding. Mr. Abe resigned as an executive of SCSK nine (9) years ago and currently has no relationship with the company.

Sumitomo Corporation ("Sumitomo"), where he previously served as an executive, currently has business relations with the Company with regard to sales. However, Sumitomo's transactions with the Company in the consolidated fiscal year under review amounted to less than one (1) percent of the consolidated net sales of the Company or Sumitomo, and do not fall under major transactions for either the Company or Sumitomo. Moreover, no other mutual relationship exists between Sumitomo and the Company, including donations, mutual dispatch of directors or shareholding. Mr. Abe resigned as an executive of Sumitomo about one (1) year ago and currently has no relationship with the company.

Furthermore, Mr. Abe has not been an operating officer or the like of the Company's major business partners and major shareholders in the past other than that stated above. For these reasons, the Company regards him as independent.

If the election of Mr. Abe is approved, the Company will designate him as an independent director as stipulated in the provisions of the Tokyo Stock Exchange, Inc.

	<p>Concerning the candidate's service over the past five years as Directors, Executive Officers, or Corporate Auditors of other companies, records of inappropriate actions by these companies during the candidate's terms of office therein, steps taken by the candidate to prevent such inappropriate actions, or responses taken by the candidate to deal with such actions after their occurrence</p> <p>It came to light that at SUBARU CORPORATION, at which Mr. Abe has held a concurrent position as Outside Corporate Auditor since June 2016, there were cases of nonconforming final vehicle inspection and altering of fuel economy and emissions data during final vehicle inspection. Although Mr. Abe had been unaware of this fact in advance, drawing on his ample experience and deep insight, he had provided recommendations about compliance with the laws and regulations and internal controls whenever possible. After the detection of the said fact, he received reports as necessary about the initiatives to clarify the causes of the inappropriate cases and prevention of recurrence. He also provided various recommendations and based on the recommendations received from SUBARU CORPORATION's outside directors and auditors, including Mr. Abe, SUBARU established a new position, Chief Risk Management Officer (CRMO), on April 1, 2019 for the purpose of enhancing effectiveness of internal control and risk management. Not only at Board of Directors' meetings of SUBARU but also at roundtables between Directors and Corporate Auditors of SUBARU, during discussions about themes such as reform of the corporate culture and quality reform, as an Outside Corporate Auditor, Mr. Abe has vigorously provided recommendations necessary for the company's reform, including reform of the corporate culture including the Group companies, quality reform, and further enhancement and ensuring of compliance and has been fulfilling his duties.</p>

Proposal No. 4: Revision of the Amount of Compensation for External Directors

It was resolved at the 1st Ordinary General Meeting of Shareholders of the Company held on June 24, 2009 that compensation for directors is up to 36 million yen a month (of which, compensation for external directors is up to 4 million yen).

In order to enhance corporate governance, the Company has implemented measures, such as creating the establishment of the Nomination and Remuneration Advisory Committee mainly consisting of external directors and having an external director chair the Board of Directors' meetings.

In order to further enhance corporate governance and ensure that external directors make an even greater contribution, and based on the assumption that the scope of activities of external directors will be widened and that the number of external directors will increase, the Company proposes that the maximum amount of compensation for external directors be revised to 8 million yen a month, while leaving the total amount of compensation for directors unchanged (up to 36 million yen a month).

As previously, the amount of compensation for directors does not include the employee's portion of the salaries of directors who are also company employees. Moreover, bonuses, retirement benefits or any other monetary compensation will not be paid to directors.

The number of directors currently in office is nine (9) (three (3) of whom are external directors). The number of directors after the approval of Proposal No. 2 as proposed will remain unchanged.

BUSINESS REPORT

(From April 1, 2018 to March 31, 2019)

From the fiscal year ended March 31, 2019, the Company applied the International Financial Reporting Standards ("IFRS"), instead of the Japanese GAAP, with the aim of improving the international comparability of its financial information and strengthening the management foundation by integrating the accounting standards applied in the Group. In the business report and consolidated financial statements for the fiscal year under review, figures after the application of the IFRS are presented, including figures for the fiscal years ended on or after March 31, 2017.

1. Matters Concerning the Current Situation of the Group

[1] Course of Business and the Results

Revenue of the JVC KENWOOD Group for the fiscal year under review increased from the previous fiscal year because revenue in the Public Service Sector and Others increased while revenue in the Media Service Sector was virtually unchanged from the previous fiscal year, although revenue in the Automotive Sector decreased owing to lower sales in the fourth quarter. Operating income of the Group also increased due to significant increases in profit in the Public Service Sector and in the Media Service Sector despite the recording of an impairment loss.

Profit-and-loss exchange rates used when preparing the financial statements for the fiscal year under review are as follows:

		1 st Quarter (from April 1, 2018 to June 30, 2018)	2 nd Quarter (from July 1, 2018 to September 30, 2018)	3 rd Quarter (from October 1, 2018 to December 31, 2018)	4 th Quarter (from January 1, 2019 to March 31, 2019)

	Euro	approx. 130 yen	approx. 130 yen	approx. 129 yen	approx. 125 yen
FY2017 (Reference)	U.S. dollar	approx. 111 yen	approx. 111 yen	approx. 113 yen	approx. 108 yen
	Euro	approx. 122 yen	approx. 130 yen	approx. 133 yen	approx. 133 yen

*** Revenue**

307,627 million yen (up 2.3% YoY)

Revenue for the fiscal year under review increased about 6,900 million yen, or 2.3%, year on year to 307,627 million yen.

Revenue in the Automotive Sector decreased from the previous fiscal year because JVCKENWOOD Hong Kong Holdings Ltd. (formerly Shinwa International Holdings Limited) was affected by the deterioration of the Chinese economy in the fourth quarter and because the Aftermarket Business was affected by lower sales due to a parts supply problem of a supplier. Revenue in the Public Service Sector increased owing to higher revenue in the Communication Systems Business due mainly to an increase in sales of the Group's US communication system subsidiaries. Meanwhile, revenue in the Media Service Sector was virtually unchanged from the previous fiscal year because revenue in the Entertainment Business increased although revenue in the Media Business decreased due partly to the change to the scheme of the brand licensing business.

*** Operating Income**

7,263 million yen (up 4.7% YoY)

Operating income for the fiscal year under review increased about 300 million yen, or 4.7%, year on year to 7,263 million yen.

Operating performance by customer industry sector is explained using core operating income, which is calculated by subtracting cost of sales and selling, general and administrative expenses from revenue. For details, please refer to [9] Transition of Assets and Profit & Loss Profit (1) (Reference) Application of International Financial Reporting Standards (IFRS) on Page 38.

The Group's core operating profit soared 35.7% year on year to 8,562 million yen. Although core operating income in the Automotive Sector decreased, reflecting a decrease in revenue, the Public

(Translation)

Service Sector achieved significant profit/loss improvements and the Media Service Sector recorded a great increase in profit.

Core operating income in the Automotive Sector decreased because the OEM Business was affected by increased burden for upfront development investments for dealer-installed option products and a cost increase due to a supplier's parts supply problem. The Public Service Sector became profitable thanks to significant profit/loss improvements due to higher revenue and higher profit in the Communication Systems Business. In the Media Service Sector, core operating income increased as the Media Business became profitable and the Entertainment Business recorded higher revenue.

* Core operating income

Core operating income is a profit indicator calculated by subtracting cost of sales and selling, general and administrative expenses from revenue. Core operating income is used as a profit indicator to replace operating income under Japanese GAAP for the purpose of clarifying the results and forecast of each segment and evaluating the portfolio of continuing operations. Core operating income does not include nonrecurring items that mainly occur temporarily, such as other income, other expenses, and foreign exchange losses (gains), which are included in operating income under IFRS.

***Automotive Sector**

Revenue 169,532 million yen (down 1.1% YoY)

In the Aftermarket Business, sales of Saisoku-Navi series car navigation systems and dashcams remained strong in the domestic market. On the other hand, sales in overseas markets were affected by sales decreases mainly in the Europe, Middle East, and Africa (EMEA) region and also a sales decrease due to a supplier's parts supply problem in the fourth quarter. As a result, revenue in the Aftermarket Business as a whole decreased.

In the OEM Business, revenue increased from the previous fiscal year due to an increase in sales of factory-installed equipment despite a decrease in dealer-installed option products.

Core Operating Income 5,607 million yen (a decrease of approx. 2,000 million yen YoY)

In the Aftermarket Business, core operating income decreased owing to lower revenue.

In the OEM Business, core operating income decreased because of increased burden for upfront development investments for dealer-installed option products and a cost increase due to a supplier's parts supply problem.

(Translation)

***Public Service Sector**

Revenue 70,944 million yen (up 9.1% YoY)

Revenue in the Communication Systems Business increased due mainly to the growth in sales of the Group's US communication system subsidiaries.

Revenue in the Professional Systems Business increased due mainly to the effects of the consolidation of Rein Medical GmbH, which became a Group subsidiary in the healthcare field in May 2018, in addition to the recovery of sales of JVCKENWOOD Public & Industrial Systems Corporation in the second half.

Core Operating Income 628 million yen (an increase of approx. 2,100 million yen YoY)

In the Communication Systems Business, core operating income significantly increased owing to strong sales of professional communication systems in addition to the impact of higher revenue.

In the Professional Systems Business, profit/loss improved owing to reduction of the amount of loss due to the fixed cost reduction at JVCKENWOOD Public & Industrial Systems Corporation despite an increase in upfront development investments in the healthcare field.

(Translation)

***Media Service Sector**

Revenue 58,795 million yen (down 0.3% YoY)

In the Media Business, revenue decreased mainly because of a decrease in revenue from the brand licensing business resulting from the change in the business scheme from the fiscal year under review, despite robust sales of AV accessories and projectors.

In the Entertainment Business, revenue increased owing to strong sales of the content business despite a decrease in sales of the contracted business.

Core Operating Income 2,217 million yen (an increase of approx. 1,800 million yen YoY)

Despite lower revenue, the Media Business became profitable reflecting a change in sales mix and the effects of cost improvements.

In the Entertainment Business, core operating income increased due to the effects of higher revenue.

[2] Issues to be Addressed

Companies today are tested in terms of their ability to respond to rapid changes in consumer lifestyles and industrial transformation brought about by the progress of digital technology and other factors. In order to secure more business opportunities, deal with risks, and survive, it is crucial that we closely monitor changes in the environment, including society, in which we operate, and make pre-emptive strategic decisions. In order to continue growing together with society, we are strengthening our earnings power in the underlying existing businesses, while also actively collaborating with other companies and external organizations to create new solutions that resolve issues of customers and society.

(1) Strengthening the business in the health care field

In October 2018, the Group, jointly with Sysmex Corporation, established a new company, Creative Nanosystems Corporation, to develop and manufacture biodevices, which are testing devices that apply microfluidics to achieve rapid reactions among tiny amounts of specimens and reagents. We will promote early commercialization of biodevices that will realize fast, inexpensive, and portable POCT (Point Of Care Testing) systems, demand for which is expected to increase in the life sciences and primary care fields.

We are also promoting the medical use of Gazefinder, a gaze tracking system developed using the imaging and optical technology the Group has been cultivating for many years and its unique eye-tracking technology. Promising application examples of Gazefinder include use as a supplementary clinical tool for diagnosing autism spectrum disorder by measuring infants' focus when they are shown test movies. It is also expected to be useful for early diagnosis of dementia. By offering a simple and accurate screening device, the Group will help address one of the issues of the aging society.

At HOSPEC JAPAN 2018, held in November 2018, the Group proposed an Operating Room Visualization Solution. We are promoting commercialization of 8K/4K camera system solutions using the imaging technology we have cultivated over many years, in order to facilitate the development of a comprehensive imaging business. Our wide range of flat, wall-mountable operating room monitors can realize a streamlined operating room, making the preoperative preparation and postoperative cleanup easier, securing an efficient line of flow during the operation, and thus supporting improved safety, cleanliness, and efficiency from before the operation takes place until after it is finished.

(2) Strengthening initiatives for the broadband solutions business

• Expanding the telematics solutions business

Jointly with Grab Holdings Inc. (Grab), the largest car dispatching service provider in Southeast Asia, the Group tested a security system for drivers that utilizes dashcams with communication capabilities, and began offering a commercial service in Indonesia, Grab's largest market. Grab provides not only on-demand transportation services, including ride-sharing among individuals and a taxi-hailing service, but also various other services, such as food delivery. Ensuring safety of registered drivers has become an issue for Grab. The security system for drivers offered by JVC KENWOOD allows drivers to automatically transmit various data, such as video captured inside and outside their vehicles and location information, to the call center in an emergency. The security system enables support services to be provided quickly in an emergency and is expected to contribute to ensuring the safety of drivers by preventing crime. While monitoring major trends of connected smart cars in the automobile industry, we aim to expand the telematics solutions business for providing safety and security for drivers using various data obtained with dashcams and other in-vehicle equipment.

• Strengthening broadband solutions business in the professional radio systems market

The market for professional radio systems has reached a turning point, with the progress of digitization accompanying a worldwide shift from narrowband to broadband radios, and demand is increasing for solutions utilizing not only audio communication, but also image and video transmission. One of the Group's most urgent tasks is to establish a broadband solutions business as a new initiative to respond to this change in the market.

In the private sector, the market for professional radio systems utilizing the cellphone/telephone network is taking off. With this in mind, JVC KENWOOD entered into a capital and business alliance with Sonim Technologies Inc. (Sonim), a leading provider of LTE smartphone systems for professional use. Through this partnership, we will offer convenient solutions, such as security footage transmission systems, on-site staff location monitoring systems, and facial recognition and analysis.

Tait International Ltd. (Tait), with which JVC KENWOOD formed a capital and business alliance in August 2018, is advancing commercialization of broadband solutions utilizing LTE. Tait also has strengths in the development of systems integration solutions and software to address customers' issues. Going forward, the Group will integrate its technology, know-how, and sales channels with those of Sonim and Tait to facilitate early establishment of the broadband solutions business.

3) Strengthening IP video production solutions

To cater to the needs of the asset-light model of film production that has developed in recent years along with advances in IT systems and the Internet, the Group has improved IP connectivity in its 4K memory camera recorder series, the second generation of its CONNECTED CAM line. We are pursuing collaboration with partner companies that are major players in such fields as video production and streaming and IP transmission infrastructure, with the aim of expanding the solutions business to meet customers' needs. For example, we have invested in Streamstar, a.s. (Streamstar), a Slovakian company specializing in the development, manufacture, and sales of IP-based live video production and streaming systems. Through linkage with Streamstar products, live video production and streaming using small and medium-sized systems is possible in sports/live event broadcasting. Moreover, remote control of several JVC KENWOOD cameras at distant locations enables downsizing of film crews and simplification of equipment. Also, every camera on the same network will automatically be shown on a list, and it is unnecessary to enter the camera's IP address, thus offering a high degree of compatibility with our camera recorders.

4) Expanding the entertainment business in all directions

Our group company JVCKENWOOD Victor Entertainment Corporation (Victor Entertainment) plans to open "Veats Shibuya" on the 1st and 2nd basement levels of the Grand Tokyo Shibuya Building (tentative name) currently under construction in Udagawa-cho, Shibuya-ku, Tokyo. Scheduled to open late September 2019, this space will feature a cafe lounge where one can enjoy food and drinks and that will be a space for live performances. Victor Entertainment will vigorously cultivate new artists with great potential and foster them to become rising stars for the next generation with the aim of communicating the attractiveness of many artists, including artists under different labels, through thrilling live performances. The venue will become a new beacon of culture and information

As a diversified entertainment company, Victor Entertainment conducts business in all spheres of entertainment, including hosting and planning live performances, artist/talent management, merchandising, and development of game apps, in collaboration with other companies in the Group and seeks to continue steadily growing so as to contribute to development of the entertainment market.

5) Maintenance and deepening of dynamic corporate culture

In order to ensure that all the Group's employees are physically and mentally healthy, respect diverse values, and bring their capabilities into full play, the Group provides various training and counselling services. In March 2019, we held Diversity Week, a company event intended to promote employee awareness of diversity through such themes as "Female Empowerment," "Working with the Disabled," and "LGBT."

To foster the creation of new solutions through innovation, the Group holds in-house technological idea contests and business idea auditions. [3] Policy for Determination of the Amounts of Compensation for Directors and the Method of Calculation

(1) Policy for determination of compensation for each director

The Company has an established method for determining the amounts of compensation for directors and executive officers based on the internal rules for compensation for officers. Specifically, the basic amount of compensation for each person is determined after setting the base compensation and the amount of compensation for each title (Chairman, President, Executive Vice President, Senior Managing Executive Officer, Managing Executive Officer, etc.) and each position (Representative, Chief Executive Officer, Chairman of the Board, Member of Nomination and Remuneration Advisory Committee, etc.) and paid.

The internal rules only provide the method of determination of monetary compensation and the Company does not provide non-monetary compensation, such as shares and subscription rights to shares, to officers (directors, auditors, and executive officers pursuant to the Companies Act; the same applies hereinafter) in exchange for officers' execution of duties.

The individual amounts of compensation for executive officers including employees who concurrently serve as directors are determined by multiplying the individual amounts of basic compensation calculated based on the internal rules by the coefficient linked with the profit performance (increases/decreases in core operating income and net income) to add/reduce incentives so that a performance-linked factor is reflected. This performance-linked factor is not introduced for compensation for non-executive directors including external directors.

Moreover, all directors and executive officers join the officer shareholding association. Each officer contributes a fixed percentage of his/her determined monthly compensation to the officer shareholding association and purchases a certain number of shares of the Company corresponding to the amount of his/her contribution every month, and thus, management from a shareholders' perspective emphasizing medium- to long-term performance is in place.

(2) Policy for determination of compensation for each audit & supervisory board member

The Company has an established method for determining the amounts of compensation for audit & supervisory board members based on the internal rules for determining compensation for audit & supervisory board members. Specifically, the amount of compensation for audit & supervisory board members consists of base compensation, which is set separately for full-time audit & supervisory board members and part-time audit & supervisory board members, and compensation set according to the position (Chairman of the Audit & Supervisory Board). The performance-linked factor is not introduced to compensation for audit & supervisory board members and their compensation is fixed compensation.

As in the case for directors and executive officers, all audit & supervisory board members join the officer shareholding association. Each officer contributes a fixed percentage of his/her determined monthly compensation to the officer shareholding association and purchases a certain number of shares of the Company corresponding to the amount of his/her contribution every month, and thus, auditing reflects a shareholders' perspective.

The details of the internal rules for determining compensation for audit & supervisory board members are finalized through discussion at the Audit & Supervisory Board meetings based on the report of the Nomination and Compensation Advisory Committee about appropriateness etc., in order to ensure consistency with the internal rules for compensation for directors and executive officers.

(3) Matters concerning entrustment of the determination of compensation based on the resolution by the Board of Directors

As described above, the Company has clarified the process for determining the compensation for each director within the maximum amount of compensation resolved by the General Meeting of Shareholders. Regarding establishment, revision, and abolition of the internal rules, the Nomination and Compensation Advisory Committee, of which independent external directors are a majority, examines the appropriateness of the draft provided by the Representative Director etc. for advice and submits a report to the Board of Directors, and the Board of Directors determines the internal rules, according due consideration and respect to the report of the Nomination and Compensation Advisory Committee. Details of the compensation for each director are not determined at the discretion of the Representative director.

(4) Matters concerning shares or subscription rights to shares granted by the Company in exchange for performance of duties

The Company's compensation for officers in exchange for their performance of duties is only monetary compensation. At present, the Company has not introduced a plan for granting shares of the Company or subscription rights to shares to officers in exchange for the officers' execution of duties.

The overview of main activities that were carried out in the fiscal year under review based on the above frameworks is as follows:

(1) Compliance Activities

In addition, information about the Auditing Informer System and whistle-blowing system are disseminated.

Risk surveillance and business continuity plan are updated, and response training for expected situations is conducted by each department. In addition, information about the reporting and response frameworks in the event that abnormal situations arise is disseminated.

(3) Activities Regarding Operation of the Board of Directors

Through the operation of the Board of Directors with an external director elected as chair in addition to having the executive officer system in place, the Company has enhanced corporate governance and established a management system in which the duty of business execution is delegated to the Executive Officers, whereby management oversights and business executions are clearly separated.

The Company established the Nomination and Remuneration Advisory Committee, in which all of its External Directors serve as committee members, to strengthen the independence and objectivity of the functions of the Board of Directors. The Nomination and Remuneration Advisory Committee makes proposals to the Company regarding candidate representatives for the Board of Directors, and reviews the appropriateness of director candidates and directors' compensation plans proposed by the representatives and others, and reports its opinions. [3] Basic Policy Regarding the Control of a Stock Company

If a share acquisition by a specific individual or group may risk damaging the corporate value or the common interests of shareholders, the Company considers it necessary to take appropriate measures to ensure the corporate value and the common interests of shareholders to the extent that can be tolerated by laws and regulations and the Articles of Incorporation. The Company also acknowledges the importance of ensuring the corporate value and the common interests of shareholders, and is carefully continuing reviews on the matter, but at this point no concrete defense measures have been implemented.

[4] Basic Policies for Distribution of Profits

The Company considers a stable return to shareholders and securing management resources for future growth to be one of its most important managerial issues, and sets the dividend from surplus and other distributions based on a comprehensive consideration of the Company's profitability and financial position.

The Company stipulates in its Articles of Incorporation that it can pay dividends from surplus on a record date it determines, in addition to two (2) record dates in a year: the record date for the year-end dividend (March 31) and that for the interim dividend (September 30).

The Company stipulates in its Articles of Incorporation that matters, including dividends from surplus, set forth in each item of Article 459, Paragraph 1 of the Companies Act shall be decided by resolutions of the Board of Directors, not those of general meeting of shareholders, unless otherwise provided by laws and regulations.

Based on this policy, the Company's Board of Directors resolved at its meeting held on October 31, 2018 not to pay an interim dividend for the fiscal year under review in order to concentrate management resources in the recovery of business results. With regard to a year-end dividend, based on the full-year business results, the Board of Directors resolved at its meeting held on May 14, 2019 to pay a year-end dividend of 6 yen per share with capital surplus as funds.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in conformity with the latter part of Article 120, paragraph 1 of the Company Accounting Ordinance that allows companies to prepare consolidated financial statements with the omission of a part of the disclosure items required under the International Financial Reporting Standards. It includes designing and operating such internal control as management determines is necessary to enable the presentation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit as independent auditor. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the purpose of audit is not for expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

- (3) We monitored and verified whether the accounting auditor maintains independency and properly implements audit, received from the accounting auditor reports on the execution of duties and asked for explanations as necessary. We also received a report from the accounting auditor stating that "systems for ensuring proper execution of duties" (listed in each item of Article 131 of the Company Accounting Ordinance) have been established in accordance with the "Quality Control Standards for Audits" (Business Accounting Council, October 28, 2005), and asked the accounting auditor for explanations as necessary.

Based on the above method, the Audit & Supervisory Board examined the business report and the related supplementary schedules, the non-consolidated financial statements (non-consolidated balance sheet, non-consolidated statements of income, non-consolidated statement of changes in shareholders' equity, and notes to non-consolidated financial statements) and the related supplementary schedules, and the consolidated financial statements (consolidated balance sheet, consolidated statements of income, consolidated statement of changes in shareholders' equity, and notes to consolidated financial statements) for the current fiscal year.
