Expressions contained in this presentation referring to the Company's future plans, intentions, and expectations are categorized as future forecast statements. Such statements reflect management expectations of future events, and accordingly, they are inherently susceptible to risk, uncertainty, and other factors, whether known or unknown, and may be significantly different from future performance. These statements represent management targets as of the time of issuing of these presentation materials, and the Company is under no obligation and expressly disclaims any such obligation, to update, alter, and publicize its future forecast statements in the event of changes in the economic climate and market conditions affecting the performance of the Company. Risk factors and other uncertainty that may affect the Company's actual performance include: (1) violent fluctuations in economic circumstances and supply and demand systems in major markets (in Japan, the U.S, the EU, and Asia); (2) restrictions including trade regulations applicable to major markets including Japan and other foreign countries; (3) sharp fluctuations in the exchange rates of the dollar, the euro, etc., against the yen; (4) marked fluctuations in exchange rates in capital markets; and, (5) changes in social infrastructure due to short-term changes in technology, etc. Please note however, that the above is not a comprehensive list of all the factors that may exert a significant influence on the Company's performance.

### **Highlights**

[Financial Results for FYE 3/'13]

- \* Operating income was recorded for the second consecutive term in the four main businesses because CE and HM continued to post operating income, despite being influenced by deteriorating competitive environments in Europe and Japan.
- \* Recovery of PS and growth of SE boosted profit in lieu of CE.
- \* Positive full-year income for the second straight term ensured a stable dividend with a distribution of 5 yen per share.

#### [Business Forecast for FYE 3/'14]

- \* Whereas CE is likely to post a decrease in profit as OEM enters a period of transition with intensive prior investment needed, both sales and profit are expected to increase slightly, driven by PS.
- \* HM will increase profit by improving unprofitable businesses. SE aims to further boost profit by making a series of hit products.
- \* Risks of exchange rate fluctuations affecting both operating and non-operating incomes/losses have been reduced.

## Financial Results for FYE 3/'13

Consolidated net sales and each income category declined due to factors including a decrease of sales in Europe of three businesses: CE, PS, and HM, and exchange rate fluctuations.

4Q	3/'12	84.3	4.0	-0.1	1.6	
	YoY change	-2.2	+0.8	+2.3	+1.0	

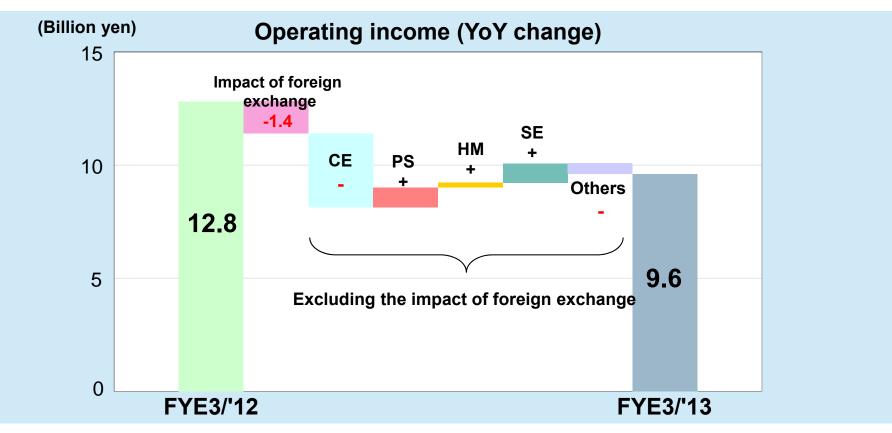

### FYE 3/'13 results: JPY 306.6B (Down 4.5% YoY)

- \* Consolidated net sales decreased, partly due to the effects of the partial contraction of HM, in addition to the influence of a decline of sales in Europe of each business amid a deterioration of Europe's economy.
- \* SE boosted net sales by producing many hit products. CE, PS, and HM maintained steady growth of sales in North America.

### FYE 3/'13 results: JPY 9.6B (Down JPY 3.2B YoY)

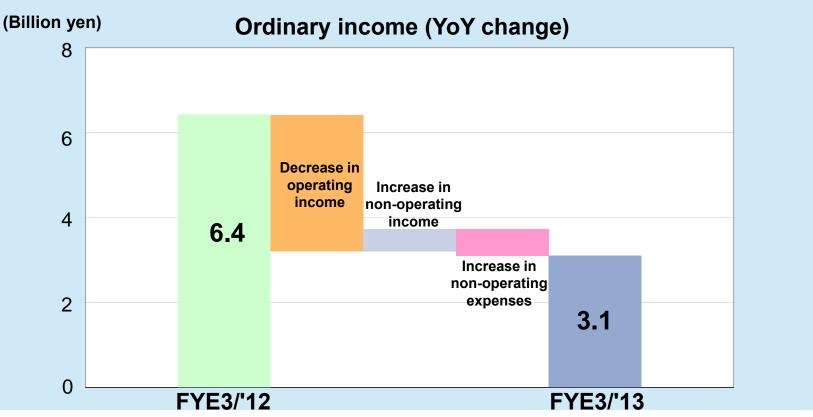

- \* Consolidated operating income declined, mainly due to the impact of fluctuating exchange rates during the first half, in addition to being affected by a decline of sales in Europe and intensified competition in CE's domestic market.
- \* SE increased profit by growing sales. PS boosted profit because the impact of the Great East Japan Earthquake and floods in Thailand receded. HM expanded profit, if the impact of foreign exchange is excluded.

### FYE 3/'13 Financial Results - Ordinary income

### FYE 3/'13 results: JPY 3.1B (Down JPY 3.3B YoY)

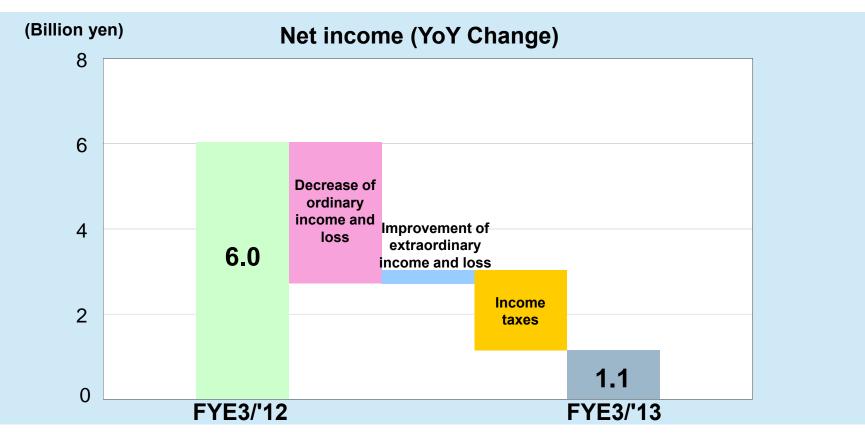

- \* Ordinary income decreased, mainly due to a drop in operating income.
- \* Non-operating income increased JPY 0.5B, primarily due to posting equity in earnings of Shinwa.
- \* Non-operating expenses increased JPY 0.6B, partly due to a foreign exchange loss of JPY 2.8B caused by a weaker yen against the US dollar from 3Q, although loans commission payable decreased.

### FYE 3/'13 Financial Results - Net Income

### FYE 3/'13 results: JPY 1.1B (Down JPY 4.9B YoY)

- \* Net income decreased, mainly due to a drop in ordinary income and an increase in income taxes.
- \* Extraordinary profit slipped JPY 0.4B, primarily due to a decline in insurance income related to the floods in Thailand.
- \* Extraordinary loss decreased JPY 0.7B, mainly due to a drop in losses caused by disasters including the floods in Thailand.
- Income taxes increased JPY 2.1B because income tax adjustments changed from a negative JPY 2.6B in FYE 3/'12 to a negative JPY 0.1B.

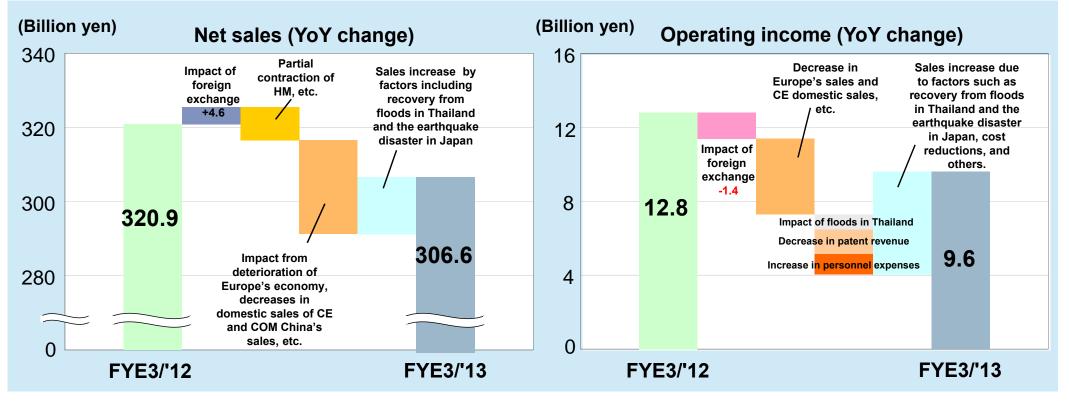

#### <Net Sales>

\* The main factors behind the sales decrease were the deterioration of Europe's economy and decreases in domestic sales of CE and COM China's sales, as well as the partial contraction of HM.

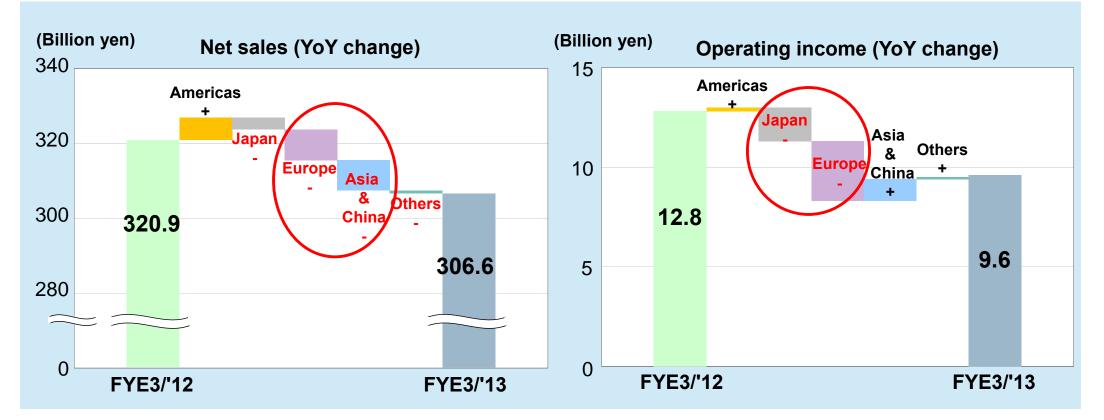

#### <Operating Income>

- \* The main factors behind the profit decline were decreases in sales in Europe and domestic sales of CE, in addition to the impact of foreign exchange.
- Factors underlying the profit decline such as the impact of the floods in Thailand, a decrease in product licensing royalties and an increase in personnel costs were absorbed.

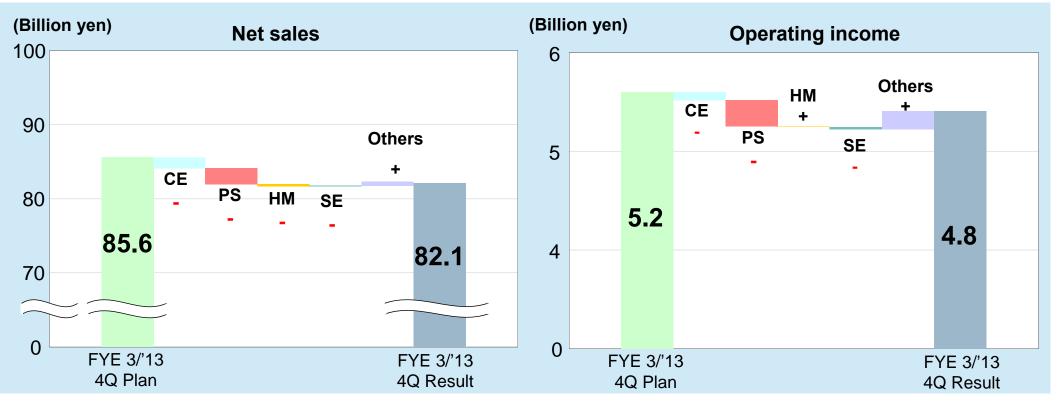

### FYE 3/'13 Financial Results -Regional Sales and Operating Income (Reference)

- \* Each business continued to grow steadily in the Americas.
- \* In Europe, each business suffered amid the economic downturn. In Japan, CE and HM struggled due to a deterioration of the competitive environment.
- \* In Asia and China, P&L improved, although sales declined due to the partial contraction of HM.

### FYE 3/'13 Financial Results -4Q Results (Compared to Plan)

- \* Net sales and operating income, although affected by negative factors such as Europe's recession, almost met expectations by taking advantage of the effects of seasonal factors, concentrating on the CE after-market in Japan, introducing a CAM new product, and winning PS orders, as well as due to company-wide efforts to reduce expenses.
- \* Ordinary profit and current net income undershot expectations due to negative factors such as the impact of foreign exchange losses realized before measures were taken to reduce unrealized foreign exchange losses.

## **Information by Business Segment**

### Net Sales, Profits and Losses by Business Segment

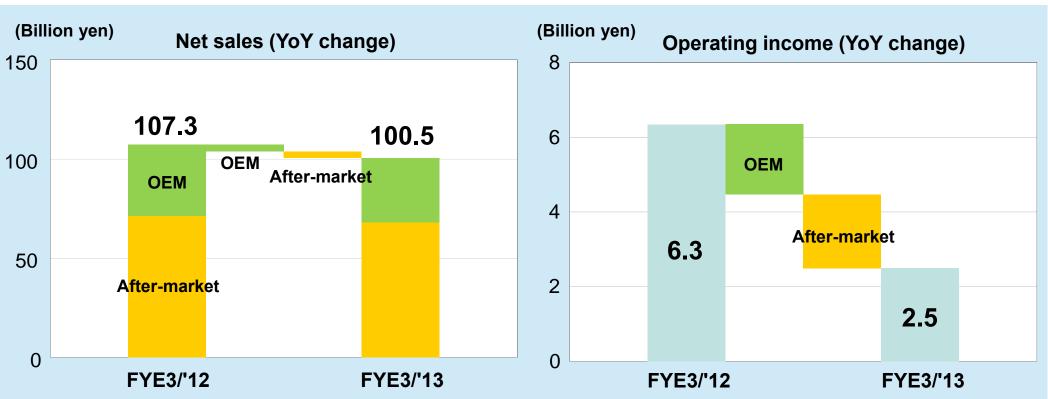

- \* Main Four Businesses Continued to Deliver Operating Income, Marking the Second Straight Profitable Term.
- \* PS and SE Neutralized Part of Downturn of CE.

#### Net sales: JPY 100.5B (Down 6.3%) Operating income: JPY 2.5B (Down JPY 3.9B)

- After-market: Maintained steady sales growth in North America. Sales picked up in Asia. But, sales and profit declined with an economic turndown and unfavorable foreign exchange rates in Europe and a trend toward product lineups in lower price ranges in Japan.
- OEM: Sales and profit slipped due to the impact of the DOP slowdown and sluggish sales of CD/DVD mechanisms for Europe. Optical pickups maintained strong sales.

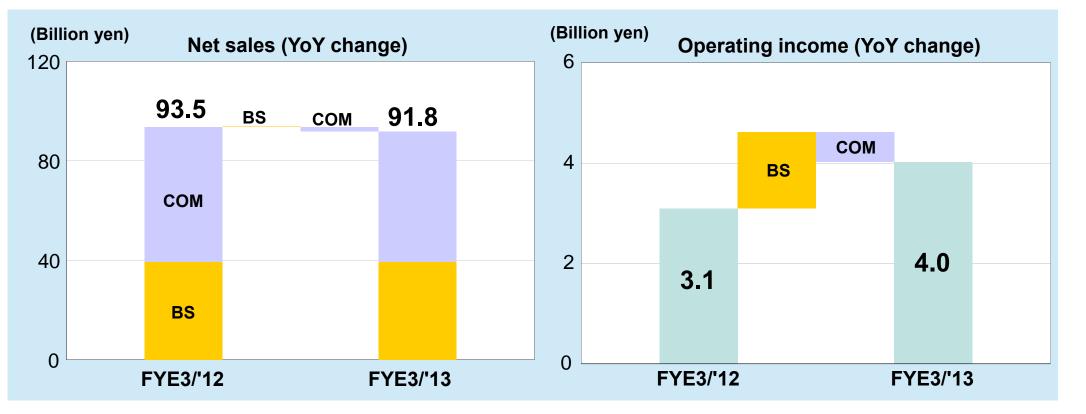

Changes in the graphs include the impact of foreign exchange.

### FYE 3/'13 - Professional Systems Business

#### Net sales: JPY 91.8B (Down 1.8%) Operating income: JPY 4B (Up JPY 0.9B)

- COM: Digital radio systems continued to have strong sales in North America, and new orders were won in Japan. Nevertheless, sales and profit declined due to a sales decrease in Europe and a delayed sales recovery in China.
- BS: Profit improved due to the normalization of production of plants in Thailand and a recovery of sales from 2Q, despite poor sales overseas and increased costs due to the floods in Thailand (in 1Q).

Changes in the graphs include the impact of foreign exchange and the floods.

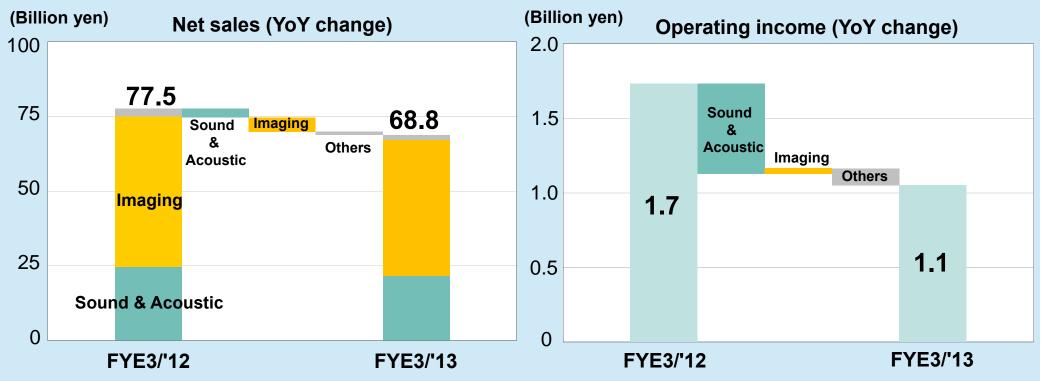

### FYE 3/'13 - Home & Mobile Electronics Business

#### Net sales: JPY 68.8B (Down 11.3%) Operating income: JPY 1.1B (Down JPY 0.7B)

- Sound & Acoustic: AV accessories maintained high profitability. Home Audio saw a deterioration of profit, mainly due to a contraction of the Japanese market and an economic downturn in Europe. Sound & Acoustic as a whole managed to stay in the black, even with declines in sales and profit.
- Imaging: Camcorders experienced a slip in profit. Projectors increased sales and profit. Displays entered the black. Imaging as a whole had improved profit, despite a drop in sales.

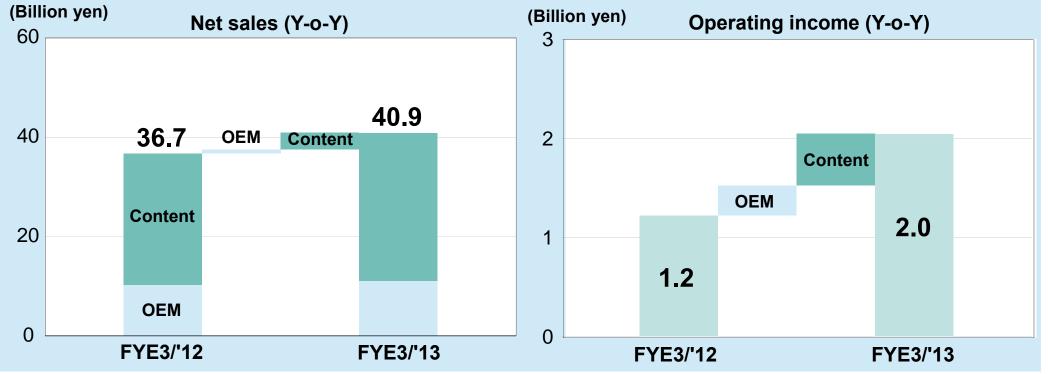

Changes in the graphs include the impact of foreign exchange.

#### Net sales: JPY 40.9B (Up 11.2%) Operating income: JPY 2B (Up JPY 0.8B)

- Content: Sales and profit expanded. Many TV drama theme songs and music albums became hit products. Animation products remained strong. Music-related rights also contributed to boosting sales and profit.
- OEM: Profit/loss improved as a result of steady production of disks and effects of cost reductions.

Changes in the graphs include the impact of foreign exchange.

### JVC KENWOO

### **Balance Sheets**

- \* Total assets increased JPY 4.9B, due mainly to an increase in the yen-equivalent value of assets in foreign currency denominations, caused by a weaker yen.
- \* Liabilities decreased JPY 5.3B, primarily as a result of a decline in accrued expenses and redemption of bonds. Interest-bearing debt declined JPY 5.9B. Net debt increased JPY 1.9B, due to a decrease in cash and bank deposits associated with the acquisition of Shinwa shares.
- Capital surplus grew JPY 0.5B. Shareholders' equity also rose JPY 0.5B.
  Total net assets increased JPY 10.2B following a correction of foreign currency translation adjustments.
  Shareholder's equity ratio rose 3.7% to 26.6%.

### **Cash Flow**

#### **Cash flow from operating activities**

### An increase of JPY 9.8B (Up JPY 0.9B YoY)

\* Mainly attributable to a sharp drop in employment structural reform expenses.

### **Cash flow from investing activities**

A decrease of JPY 13.4B (a spending increase of JPY 6.9B YoY)

\* Mainly attributable to the promotion of strategic investments in capital and business alliances, including the acquisition of Shinwa shares.

### **Cash flow from financing activities**

A decline of JPY 8.6B (a spending increase of JPY 7.1B YoY)

\* Mainly attributable to a decrease in income from long-term loans and an increase in expenses from the redemption of bonds.

### Cash and cash equivalents at the fiscal year-end

YoY change	+3.4	+0.4	+2.4	+1.9

### Earnings Forecast for FYE3/'14 (YoY)

- \* Projection: Decline in profit for CE because OEM will enter a period of transition and focus on prior investment to win big orders from next term.
- \* Projection: Growth of PS, supported by twin pillars: continued strength of COM and sales of BS freed from the impact of floods in Thailand.
- \* Projection: Stable sales and profit to continue for HM and SE, as well.
